
MH MasseyHacks

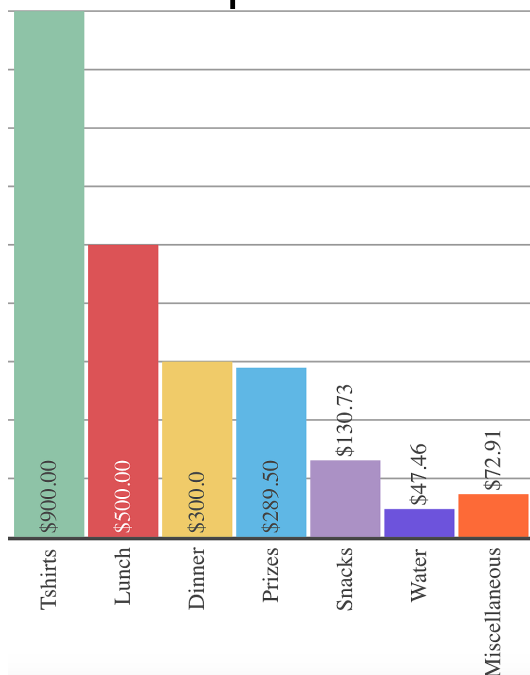

Transparency Report

Overview

MasseyHacks took place at Vincent Massey Secondary School from 9AM-9PM on February 27th, 2016. It was the first high school hackathon in the county and over 100 students participated as hackers, mentors and volunteers!

We hope you enjoyed MasseyHacks as much as we enjoyed planning it! The following is our transparency report that covers everything that happened behind the scenes at MasseyHacks!

Expenses

We raised \$3390 from our generous sponsors! We spent \$1801.10 for MasseyHacks, with the remaining \$1588.90 going towards MasseyHacks II.

Miscellaneous costs include plates and forks.

Special Notes

1. To help our first-time hackers and first-time programmers, we created a special workshop on HTML and CSS. For many of these hackers, their projects were their own personal websites!
2. All of the participant data contained in this document is taken from our Typeform registration and our post-event survey.
3. We wanted to try something new and since most of our hackers were first-timers, we had a maximum team size of 5!
4. There were 23 submissions on DevPost and 1 submission offline.
5. Acceptance was done on a first-come, first-serve basis.
6. There were over 10% registrants who were out of town and were not able to make it to MasseyHacks due to the lack of transportation, which we hope to provide for MasseyHacks II.

Comments from Hackers...

This was probably one of my most favorite events all year. Thank you so much for hosting this! I can't wait for MasseyHacks 2!

It was awesome! Looking forward to the next one!

I really liked everything! Can't wait for the next one!

Hacking is cool. Would've liked more time though.

I liked your hackathon

I HAD SO MUCH FUN

WANT MORE STICKERS!!!!

♥, the MasseyHacks team
